Subject: TRS National Outreach-How soon?

Dear FCC Personnel,

The March 2000 Report and Order and FNPRM proposed national TRS outreach. It is now nearly two and a half years later, and the need to educate the public on TRS for the sake of higher recognition of a relay call has not been diminished. The need still remains. TRS users are still getting hung up on.

Outreach education is a win-win situation for all those affected. Good public relations is never a bad decision to move forward on. Could we please see some action on this please?

Being deaf only gets easier, when the nation is better educated!

Sincerely,

Pam Holmes
